Kab. Bogor, Jawa Barat | [linkedin.com/in/rayhan-dwi-sakha](https://www.linkedin.com/in/rayhan-dwi-sakha)

A final-year Information Systems student at Universitas Indonesia (GPA 3.40/4.00) with a robust foundation in **programming, data analysis, Machine Learning, and full-stack system development**. Passionate about leveraging technology to solve real-world problems and committed to continuous learning. Possesses strong **analytical, problem-solving, and communication skills**, honed through diverse academic projects and active leadership roles in student organizations. Eager to contribute to innovative teams and gain practical experience in dynamic tech environments.

## Education

Universitas Indonesia – Depok, Indonesia

Aug 2022 – Present

Bachelor of Information Systems, GPA: 3.40/4.00

## Projects

**Anime Sales & Audience Rating Prediction** – Final Project (AI & Data Science Foundations)

Mar 2025 – Jun 2025

Team of 4 | Tools: Python, scikit-learn, pandas, Kaggle, matplotlib

- Developed a **classification model** to predict anime age ratings and a **regression model** to estimate sales figures, using a dataset of 6,000+ anime titles.
- Applied **PCA and K-Means clustering** to segment anime into two major groups: *mainstream hits* and *general titles*.
- Performed data preprocessing, exploratory data analysis (EDA), feature engineering, and model evaluation using Random Forest, XGBoost, and Linear Regression.
- Achieved **2nd place (classification)** and **3rd place (regression)** in an internal Kaggle competition among student groups.

**Information System Development for Green Welfare Indonesia** – Final Project

Feb 2025 – Apr 2025

Role: Scrum Master & Full-Stack Developer | Tools: Java, Spring Boot, Vue.js, PostgreSQL, Docker, Git

- Led the end-to-end development of a customized **Information System** for Green Welfare Indonesia (GWI), a nonprofit focused on environmental CSR initiatives.
- Acted as **Scrum Master**, coordinating sprints, maintaining product & sprint backlogs, preparing PRD, and delivering weekly progress reports
- Contributed to system development using Java (backend) and Vue.js (frontend), integrating three major modules:
  - Transaction Processing System (TPS): CRUD operations for CSR events, procurement, campaign requests, etc.
  - Management Information System (MIS): Reports and analytics for CSR and marketing activities.
  - Executive Information System (EIS): Executive dashboard for marketing evaluation.
- Deployed the application using **Heroku (backend)**, **Vercel (frontend)**, and **Neon (PostgreSQL DB)**; delivered successfully with positive client feedback.

**Apap Medika** – Final Project (Enterprise System Architecture & Development)

Oct 2024 – Dec 2024

Team Project | Tools: Java, Spring Boot, PostgreSQL, Docker, Git

- Designed and developed **ApapMedika**, a modular healthcare information system implementing **microservice architecture** to simulate enterprise-level medical services.
- Built and integrated 6 independent services:
  - **Profile Service** (user & authentication),
  - **Appointment Service**,
  - **Reservation Service** (inpatient care),
  - **Pharmacy Service**,
  - **Insurance Service**,
  - **Billing Service**.

- Applied **clean code principles**, RESTful API standards, and structured business logic based on predefined product backlogs.
- Deployed services locally using Docker and conducted testing across service boundaries.
- Collaborated in a development team to ensure maintainability, scalability, and domain separation.

## Organizational and Volunteering Experience

### BEM Fasilkom Universitas Indonesia

Deputy of Sport Department

Mar 2024 – Feb 2025

- Managed a team of 13 members, fostering **collaboration** and ensuring smooth execution of department goals, demonstrating **leadership** and **teamwork skills**.
- Supervised 16 sports programs aimed at promoting student engagement and healthy lifestyle across the faculty.
- Successfully led the faculty to win 9 medals (2 gold, 4 silver, 3 bronze) in OLIM UI 2024, a university-wide sports competition.

### PMB Fasilkom Universitas Indonesia

Mentor

Sep 2024 – Nov 2024

- Mentored 8 first-year students from Information Systems, Computer Science, and International Programs during the official faculty orientation.
- Provided guidance on adapting to academic and student life, including study tips and university resources.
- Built lasting relationships with mentees and served as an approachable peer support figure throughout their transition period.

## Certifications

### Google Digital Marketing & E-commerce

Coursera

Issued May 2025

## Skills & Others

### Hard Skills :

- Programming & Tools : Java, Python, Vue.js, RESTful APIs, Spring Boot
- Data & AI: Machine Learning, Artificial Intelligence, Data Preprocessing, Exploratory Data Analysis (EDA), Feature Engineering, Model Evaluation, Data Classification, Prompt Engineering (implied by data handling)
- Database & Deployment : PostgreSQL, Docker, Git, Vercel
- Analytics & Others : Google Analytics, Microsoft Excel

**Soft Skills** : Leadership, Teamwork, Project Management, Communication, Problem Solving, Adaptability

**Languages** : Indonesian (Native), English (Intermediate)
